Secure Printing Solution

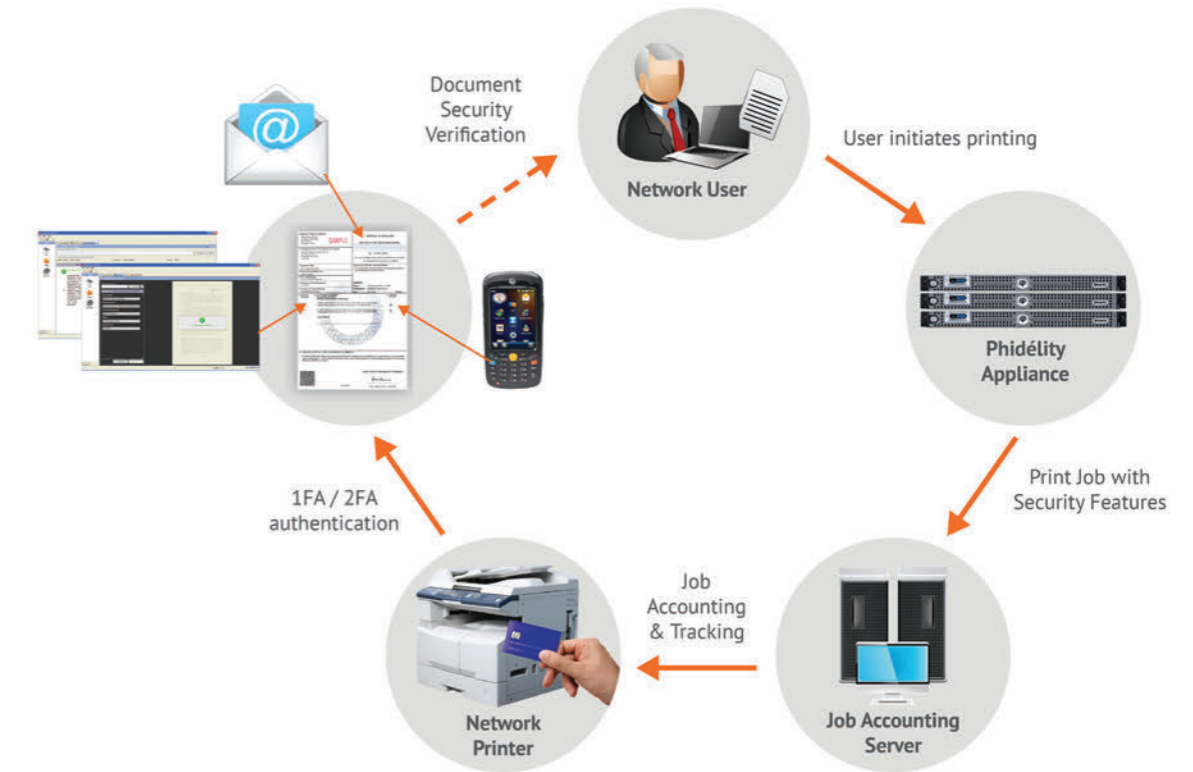

Secure Printing Solution (SPS)

What is it?

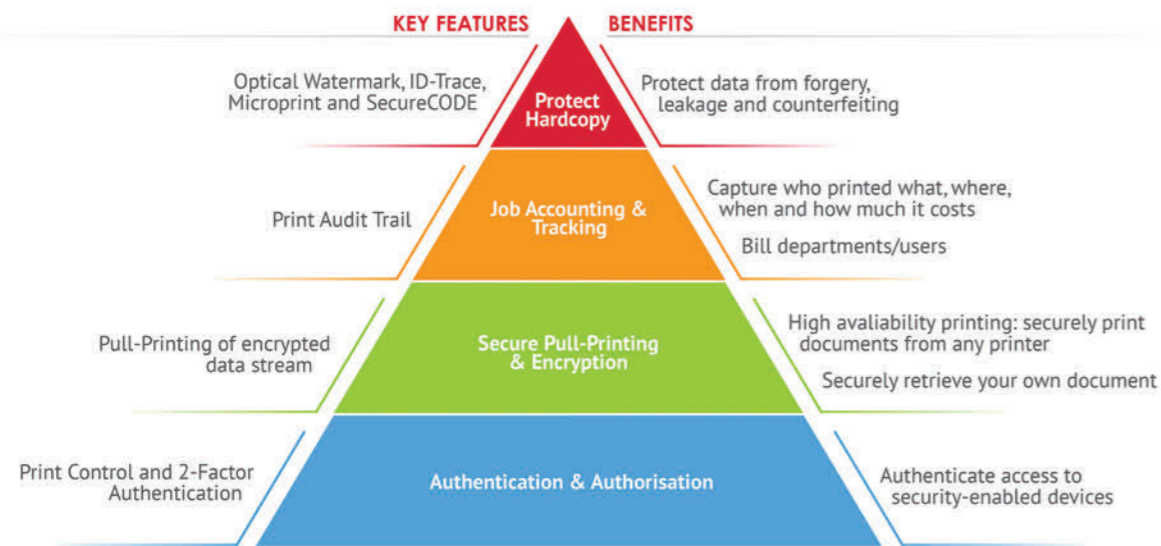

Despite advances in technologies worldwide, the printed document is still the predominant form of trusted communication today. Each year, billions of dollars are lost because of unauthorised printing, theft, counterfeiting and leakage of documents.

The Secure Printing Solution resolves these problems by combining authenticated pull-printing with optical document security to safeguard information leakage and minimise losses.

The solution is powerful yet flexible, maintaining convenience for the end-user using only normal paper, toner and typical office printer.

Secure Printing Solution Workflow

The Secure Printing Pyramid

Secure Printing Solution

Threat	Countermeasure
Theft of Printouts	Authenticated Pull-Printing
Unauthorised Printing	Print Control and Print Audit Trail
Document Counterfeiting	Document Authentication via Optical Watermark and Microprint
Document Forgery	Document Integrity Verification via SecureCODE
Document Leakage	Document Tracking via ID-Trace

Benefits

Convenience

Protect against counterfeit, forgery and leakage with no change required in end-user behaviour.

Cost-savings

Ensure responsible printing by reducing print wastage and unclaimed printouts, minimising operational expenditure.

Credibility

Ensure the authenticity of documents, building trust among partners, customers and other relevant stakeholders.

Compliance with Standards

Help companies to comply with regulatory requirements, such as the Sarbanes-Oxley Act (SOX) of 2002 and the Health Insurance Portability and Accountability Act (HIPAA) of 1996.
